- Upfront Electronic Control Panel with Dual LED Display and Dial-A-Cycle™
- Large Chrome Square Rimmed Glass Door with Dark Blue Tinted Cover

**Technology Benefits**

- LoDecibel™ Quiet Operation
- Highly Energy and Water Efficient

White

# WASHER/DRYER COMBO

Full Size All-in-One Washer and Dryer

## Washer/Dryer Combo

The LG **Wash and Dry Combo** releases the user from the burden of transferring clothes from washer to dryer. The intelligent wash/dry system automatically programs the machine to wash and then dry clothes.

## Fast Forward your Laundry

You'll save up to 20 minutes on each full-size load without sacrificing cleaning performance with **TurboWash™ Technology**. Twin spray nozzles, and an atomizing rinse deliver effective cleaning while saving time. Spend less time doing laundry and more time doing the things you love. What would you do with 20 extra minutes?

## Deep Clean with Steam

LG **Steam Technology** penetrate fabric to remove soil and enhance cleaning results, it also removes common household allergens. The Allergiene™ cycle gently removes over 95% of common household allergens, like dust mites and pet dander from even the most delicate fabrics.

## More Free Time

Towers of towels, piles of sweatshirts, and a mountain of jeans? Go for it. The **ultra large capacity (5.0 cu.ft.)** washer lets you do more laundry in fewer loads. That's time well saved.

## Count On It

When you buy a washer, you don't want to worry that it won't last. Because the **DirectDrive™ Motor** uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a **10-year warranty**.

## Call, Connect, Resolve

**SmartDiagnosis™** uses self-diagnosing technology that can communicate 24/7 with LG customer service over the telephone providing you with comfort and reliability.

## The Hottest Thing in Cold

Now using the cold cycle on your washer doesn't mean compromising on how clean your clothes are. **ColdWash™ Technology** uses cold water and enhanced washing motions to penetrate deep into fabrics, giving you cold-water savings with warm-water performance.
