Black Ceramic Glass with Stainless Steel Side Edges and bevelled front / back

### KEY FEATURES

#### Black Ceramic Glass Surface

P&C cooktops are designed to be scratch-resistant and effortless to clean, these cooktops offer a seamless aesthetic that contributes to a clean, modern kitchen ambiance. The minimalist design enhances the overall appeal, complementing any kitchen decor with its contemporary style.

#### Induction Zones

Electromagnetic heating technology where heat is generated inside your cookware, ensuring a more efficient process with less energy waste, faster heating, and a safer cooking experience

#### Precise Control

P&C cooktops feature user-friendly touch controls with LED indicators that are practical and allow for precise temperature settings.

#### 9 Power Levels With Power Boost

This cooktop offers nine power levels for each zone and Power Boost to add even more power that speeds up the cooking process.

#### Residual Heat Indicators

When the cooking zone is not cool enough to touch safely, the residual heat indicators warn you with a visible red indicator on the cooktop surface.

#### Automatic Shutoff

If a cooking zone is in use for a certain period of time with no changes to the control setting, the burner will automatically turn off to prevent unsupervised heating.
